
We love our home!

Posted by ksw - March 16, 2008 6:25 AM

We bought our first new home from Northwood Homes. They came highly recommended from some friend's. From start to finish, they responded quickly to every concern or question we had. The owner even met with us a couple of times to answer questions. After we closed on our home, they followed up with things like they said they would. They were very prompt in returning phone calls and everyone was very pleasant to work with during the construction process. Since living in our home, we can see that Northwood is a company who takes pride in their work and pays careful attention to every detail. They take their homeowners seriously and are true to their word. We would highly recommend Northwood Homes to anyone! Thank you Northwood for building us our dream home.
